

**Your voice  
will be heard!**

Rehabilitation Services Commission Administrator Michael Rench is embarking on a 12-city road trip to engage **you** and fellow community members in collaborative dialogue during café-style conversations.

You and other guests will gather in small groups to share thoughts on questions that are genuinely important to your lives, work experiences and communities. Ideas, patterns and themes from the discussions will be compiled and used to shape future state services such as employment, vocational rehabilitation, transition youth and independent living.

*Don't miss this chance to shape the future! Everyone's voice will be heard!*

Visit [www.rsc.ohio.gov](http://www.rsc.ohio.gov) for more information and updates from each regional conversation.
