Policy Committee

The policy committee serves as the clearinghouse for most issues affecting any aspect of DD services, and makes recommendations for action to OPRA's board of directors. Every effort is made to allow sufficient time to discuss issues in detail in order to understand the impact on individuals and providers, and to consider what position OPRA should take on a given issue. OPRA Committees examine issues and may pass them on to the Policy Committee for review. Ad hoc workgroups may also be established from time to time to examine issues more fully. The policy committee is chaired by the vice chair of the board of directors with a representative provider group selected to serve as the core committee. This core committee is tasked with convening and commenting on policy issues as they arise, whether during a meeting or between meetings. Other committee work flows through policy committee to the board of directors, and vice versa.
