Homeless and a Quick Application:

An employee new to the area, spoke with the Success Coach and a Community Health Worker, indicating that she was living out of her vehicle, and occasionally with friends. The EE was not familiar with programs in the area, and had no idea where to begin. The CHW remembered applications for public housing were being accepted, but it was the last day and final hour. The EE would not have enough time to make it into the office. The SC and CHW decided to check the internet to see if the EE could apply online. With the help of the SC and CHW, the EE completed the online application for Public Housing, and is now on a list to receive housing.

A Connection to Grief Counseling:

An employee and his girlfriend share a residence. She lost her son in an auto accident. Both are in desperate need of grief counseling. The Success Coach and Community Health Worker connected them with an agency that provides counseling. With the help of the SC and CHW, both are now receiving professional counseling and are involved in a support group.
