

reidy medical supply // reidy cares
don't just take it from us.

"Between their vast product knowledge and prompt response time, Reidy Medical Supply is a great resource for the developmentally disabled community. Their team listens when discussing the needs of your clients and provides the best product possible while saving you money."

Lillian Pyles, Independence of Portage County, Inc.

"It has been a pleasure working with Reidy Medical Supply, Inc. RMS has played an important role in helping UDS keep its clients and employees safe this past year. As a DD provider, we maintain strict health and safety policies and practices and, as a result of COVID, we have had to dramatically increase our use of PPE. RMS has made the process easy by consistently providing superb customer service and high-quality products at fair prices. The fact that they are local and family owned is an added bonus."

Teri Mino, Executive Assistant, United Disability Services

"We couldn't be happier with our decision to transition to Reidy Medical Supply for our Medical Supply needs. The individualized attention to our specific needs and exceptional level of customer service ensures that the individuals we serve have the supplies and care that they need to live their healthiest lives."

Anthony Kirkby MBA, BSN, RN, Director of Clinical Operations and Staff Development, Society for Handicapped Citizens of Medina County
