\$137.54/CS

INDICAID™

INDICAID™ COVID-19 Rapid Antigen Test

The **INDICAID™ COVID-19 Rapid Antigen Test** is a point-of-care kit designed for the detection of SARS-CoV-2 antigens in direct nasal swab samples.

The test is intended for use by healthcare professionals in symptomatic individuals within 5 days after onset of symptoms.

This product has received FDA Emergency Use Authorization.

Product Advantages

- **Fast:** Results in 20 minutes
- **Simple Sampling:** Self-collected shallow nasal samples
- **Convenient:** No equipment or training needed
- **Batch Testing:** Easily collect and test multiple samples

Intuitive Workflow

Batch Testing

Intuitive design allows for the concurrent collection of a large number of samples followed by batch testing of individual samples within 2 hours.

Clinical Performance

In a prospective US clinical study, INDICAID™ accurately identified 84% of those who were positive (PPA) and 97% of those who were negative (NPA) for SARS-CoV-2.

Product performance against variants of concern are evaluated on an ongoing basis.
Technical Bulletin available upon request.
